

## Accessing learning opportunities easily

“Agora offers access to a great diversity of learning opportunities for staff and partners.”

### Find the right opportunities

Agora's *Catalogue* helps you find the right learning opportunity among hundreds of options. You can search by title, keyword, provider, competency, topic or format.

### Learn wherever you are

Learn anytime, anywhere on and web-enabled computer, tablet or smartphone. *Agora Offline*, a complementary desktop application, allows learners to complete certain courses offline and synchronize their progress on the main web portal when an internet connection is available. With Agora you can also manage various approval workflows online, with automated notifications for each step. This saves precious time and provides flexibility and clarity in processes.

### Plan and record your learning and development activities

Agora's *Learning Plans* allow you to set precise objectives and phase your development. With a direct link to the *Catalogue*, you can quickly identify and bookmark the opportunities adequate for your needs. All your learning achievements remain safely recorded in your personal *Learning Record*. You can even include external learning initiatives performed outside the system, such as attendance to a conference or a course taken at a local school.

### Boost your career

*My Career* serves as a career coaching portal with tips helping you prepare your next career move, tools to assess yourself and plan your career development, as well as opportunities to exchange and discuss with peers and experts.
